ANTIQUE HEART PINE

CABIN PLANK

Wide Plank Flooring Description

- **Species:** Southern Pine
- **Source:** Resawn from large beams and decking taken from demolition sites
- **Heartwood:** Most planks are 50% and better
- **Grain Density:** 4 rings per inch and more
- **Knots:** Unlimited sound knots, broken knots and loose or fallen out knots.
- **Holes:** Many nail / spike holes with ferrous stains and larger bolt holes as well.
- **Cracks:** Unlimited cracks and splits as long as the planks are solid to walk on when installed.
- **Face Character:** Since the lumber is resawn from large timbers, the surface of planks will have no original weathering or saw marks
- **Color:** characteristic light reddish color variations with some yellowish colors blended in as well. Planks may have sap stains, oily stains and other naturally occurring colors variations.
- **Grain:** Mixed patterns
- **Milling:** Center matched Tongue & Groove profile and squared ends
- **Size:** Thickness: 3/4" Width: 3" - 12" Length: 2' - 12'
- **M/C:** 8-10% or less
