WORMY RED OAK

Wide Plank Flooring Description

- **Species:** Red Oak
- **Source:** Appalachian Mountain Region
- **Heartwood:** 95% and better
- **Knots:** Some sound knots and limited partially broken knots
- **Holes:** Frequent small worm holes and insect scars
- **Cracks:** Some limited vertical surface checking allowed as long as the plank is sound
- **Face Character:** The lumber used to make this floor is graded specifically to have as much small worm hole character as possible.
- **Color:** Natural color variations, mostly tan or reddish with darker mineral streaks
- **Grain:** Mixed patterns
- **Milling:** Tongue & Groove profile with back relief and squared ends.
- **Size:** Thickness: $\frac{3}{4}$ " Width: 3" - 12" Wider widths from 12" - 18" are available in a "butt joint" plank profile (square edges). Length: 2' - 16'
- **M/C:** 8-10% or less
